PROJECTS

Kishorgonj Keshba Fazil Madrasha || NextJS, Material-Tailwind, Tailwind, MongoDB, NodeJS, Express, JWT.

Educational Project || Personal Project   Github Repository   Live Link

- **Developed a full-stack educational platform** using **Next.js** for server-side rendering and **React** components.
- **Implemented responsive UI/UX** with **Material-Tailwind** and **Tailwind CSS**, ensuring a modern and user-friendly interface.
- **Designed and managed a robust backend** using **Node.js** and **Express.js** to handle server-side logic and API routing. Designed and implemented an intuitive and feature-rich **Admin Dashboard.**
- **Integrated MongoDB** as the database to efficiently store and manage user data, course content, and other relevant information.
- **Implemented JWT-based authentication** for secure user login and session management.
- **Deployed the application** for live use, providing a seamless and accessible educational experience.

- -

MeetReady || NextJS, DaisyUI, Tailwind, MongoDB, Firebse, NodeJS, Express, JWT.

MeetReady || Manage meetings and public profile || Team Project   Github Repository   Live Link

- **Developed a comprehensive meeting management platform** with features like **easy scheduling** and **customizable calendars** to streamline professional workflows.
- **Built robust networking tools** and **public profiles** that include **resume-building capabilities** to enhance user visibility and connectivity in professional networks.
- **Focused on user experience** by integrating **seamless calendar management** and intuitive interfaces, helping users stay organized and efficiently manage their professional lives.

- -

BookWarp || NextJS, DaisyUI, Tailwind, MongoDB, Firebse, NodeJS, Express, JWT.

BookWarp || Book buying and exchange || Team Project   Client Side   Server Side   Live Link

- **Developed a community-driven book exchange platform** using **TypeScript** and **Next.js**, enabling seamless book trading and interaction among users.
- **Implemented key features** such as a **messenger chatbot**, **user profiles**, **book condition rating**, and **advanced filtering** to enhance user experience and engagement.
- **Emphasized user-friendly design** with comprehensive **user documentation** and **intuitive interfaces** to ensure a smooth and enjoyable experience for book enthusiasts.

LANGUAGE PROFICIENCY

- English
- Bangla
- Hindi(conversation only).
